#### The Birth of Stars

This new Hubble photo is but a small portion of one of the largest seen star-birth regions in the galaxy, the Carina Nebula. Towers of cool hydrogen laced with dust rise from the wall of the nebula. Reminiscent of Hubble's classic image of the Eagle Nebula dubbed the "Pillars of Creation" this image is even more striking in appearance. Captured here are the top of a three-light-year-tall pillar of gas and the dust that is being eaten away by the brilliant light from nearby bright stars. The pillar is also being pushed apart from within, as infant stars buried inside it fire off jets of gas that can be seen streaming from towering peaks like arrows sailing through the air.

Notice how the ground has been removed between the high points

# Little streams with flat valleys

- The streams could never erode valleys like these, the erosive capacity is far too low, even in flood

# Gentle rain does NOTHING it is all about high velocity water

- High velocity water erodes rapidly and continues eroding until there is nothing left to erode

# Plucked cliff faces

# Where has all the rock gone?

- River flow
- All this distance
- All through this one gorge

# Erosion of valleys

- Limited bedload = narrow valley
- Large bedload = wide flat valley

# A huge problem to explain

- The rock was not removed by ice
- It did not evaporate
- It did not dissolve
- It can only have been eroded by massive water suction resulting from high velocity
- Coupled with boiling water?
- How could this happen?

# Continental separation

- The continents fit together
- Conventional theory says this took place gradually over millions of years
- What if it happened rapidly like all the other events discussed in this presentation?

# Continental separation Hypothesis for splitting / cracking

- Coefficient of thermal expansion:

$$\frac{\Delta L}{L} = \alpha [\Delta T]$$

$\Delta L$  = Change in Length

$\Delta T$  = Change in Temperature

$\alpha$  = Coefficient of Thermal Expansion (CTE)

- Granite 6.5 micrometers per meter at 20 degrees Centigrade
- Melting point of Granite = 1,700 degrees Centigrade
- Cooling from molten to zero degrees would shrink the circumference of the earth by approximately 427 km
- BUT the core would NOT shrink
- Massive tension and splitting of the crust would result

# Continental separation and water drainage

- As continents separate massive gorges form
- Water rushes off the continents
- Massive erosion beyond anything we can visualize occurs

# Continental separation and water drainage

- As continents separate massive gorges form
- Water rushes off the continents
- Massive erosion beyond anything we can visualize occurs

# Ocean trenches

## Another source of drainage

- The Mariana Trench is 11,000 m deep
- Seemingly concurrently with continental separation trenches were also formed further draining water off the continents
- The volume of the seas is MUCH greater than the volume of the continents
- Easy to postulate rapid and dramatic drainage

# Continental separation Hypothesis for displacement Fly-by of large space object

- Theories that earth's axis was once vertical
- That orbit of sun was not elliptical
- That a year was exactly 360 days
- A large comet or other space object that exerted massive gravitational pull on the earth could pull the earth out of a circular orbit around the sun
- AND cause the earth to tilt on its axis, one theory says close to 30 degrees originally
- WHY NOT?

# The age of all this?

# The dilemma of the “God’s Word” phenomenon

The Bible is the word of God and

THERE **WAS** A FLOOD!

- But nowhere in the book (Greek biblios = book) does the bible claim to be without error or to be “the Word of God”
- It IS a book containing a collection of historical records

# The dilemma of the “my teacher told me” phenomenon

Professor ... told me  
There was NO flood  
This planet came into existence 4.55  
billion years ago plus or minus 1%  
Everything happened gradually

There is nothing to discuss

- But we have no way of knowing what happened millions of years ago
- It is pure speculation
- We must look at current practical facts

# The problem of clean sharp corners

- All over the world we find clean rocks with sharp corners
- Over millions or billions of years these corners would be weathered and rounded by thermal stressing and covered with moss and lichen
- Millions of years is improbable
- Are there other indicators of age?

### USE OF **ATOMIC WEAPONS**

#### A. *In Ancient Documents*

##### *INDIA 2449 B.C.*

30 (W): An Indian text recounts in detail how aircraft were used to launch a weapon that devastated three cities. The record is unnervingly similar to an eyewitness report of an atomic bomb explosion. It describes:

- the brightness of the blast
- the column of rising smoke and fire
- the fallout
- intense shockwaves and heatwaves
- the appearance of the victims
- the effects of radiation poisoning

The historical text states:

- An iron thunderbolt contained “the power of the universe.”
- “An incandescent column of smoke and flame, as bright as ten thousand suns, rose in all its splendour.”
- “Clouds roared upward.”
- “Blood-coloured clouds swept down onto the earth.”
- “Fierce winds began to blow.” Elephants miles away were knocked off their feet.

# Total destruction of the surface of the earth less than 4,500 years ago disrupts many other theories

- Global warming is a result of the earth continuing to dry out as water drains from the continents
- So is the rising of sea levels – cities have been submerged
- Races can all trace their origin back to Noah and his family – all differences are a consequence of degradation (negative evolution)
- Evolution over millions of years is invalid
- Dinosaurs lived recently, the Loch Ness Monster was probably real

*Most of this document was drafted on or before 14 May 2004.  
I resumed work on 27 September 2007 starting with section 20 on page 78 and this version  
is released on 4 October 2007 with minor modifications to the first part of the book while  
accepting that my understanding of some issues has evolved in the intervening three and a  
half years.*

### **ABOUT INTERPRETING THIS DOCUMENT**

*This document started out with a vague idea of where i was headed in terms  
of solid evidence in support of the thesis that there is a creator.*

# Sign's of Judgment

# The ship ("Ark") of Noah – found Solid evidence of judgment

- Genesis 6:5-8 *"Then Yah the eternally self existing {the LORD} saw that the wickedness of man was great in the earth, and that every intent of the thoughts of his heart was only evil continually. And Yah the eternally self existing {the LORD} was sorry that He had made man on the earth, and He was grieved in His heart. **So Yah the eternally self existing {the LORD} said, "I will destroy man whom I have created from the face of the earth, both man and beast, creeping thing and birds of the air, for I am sorry that I have made them." But Noah found grace in the eyes of Yah the eternally self existing {the LORD}. "*** NKJV

1. "I am Yah the eternally self existing {the LORD} your Mighty One {God}, who brought you out of the land of Egypt, out of the house of bondage. You shall have **no other mighty ones {gods} before Me.**
2. "You shall not make for yourself a carved image -- any likeness of anything that is in heaven above, or that is in the earth beneath, or that is in the water under the earth; **you shall not bow down to them nor serve them.**" NKJV

# Ark (container) of the Covenant Hidden about 597 BC

- Ark of the covenant
- Container of the terms of the covenant
- The ten laws (commandments)
- The basis of judgment
- Break the covenant you DIE
- But, it went missing about 587 BC at the time of the exile from Jerusalem to Babylon

# Ark of the Covenant found in 1982 AD by Ron Wyatt Evidence of coming judgment

- Hidden in an excavated cave
- Outside the walls of Jerusalem
- Under a hill called "skull hill" because it looks like a skull Matthew 27:33, Mark 15:22 and John 19:17
- Six meters under an execution {crucifixion} site that bears close resemblance to that described in the books of Matthew, Mark, Luke and John
- With an earthquake crack (Matthew 27:54) that cuts through the middle stake {cross} hole
- And blood with only the female chromosome has flowed down the crack onto the Mercy Seat of the Ark

This is huge if you get the real significance

# Ark (container) of the Covenant Found about 1982 AD by Ron Wyatt evidence of coming judgment

- Close correlation with the four historical accounts that deal with the death of a prophet commonly known as Jesus Christ
- Actual name Yahooshua meaning "Yah (the Almighty) is salvation"
- Christ meaning "anointed with the Spirit of Yah"
- Anointing refers to the presence of the Spirit of Yah on a human being metaphorically compared with smearing with oil
- Died on a stake (tree trunk) NOT a cross (the cross is a demonic sign = Ankh = pornographic symbol)

# Ark (container) of the Covenant Found about 1982 AD by Ron Wyatt Evidence of coming judgment

- It had to be this way
- Blood on the Mercy Seat of the Ark is necessary for any offering {sacrifice} for atonement to have validity (Leviticus 16)
- Necessary for a new Covenant
- Necessary for a new way of responding to the threat of coming judgment
- Videos (DVD), books and other material available from [admin@ETIMin.org](mailto:admin@ETIMin.org) [graysales@bigpond.com](mailto:graysales@bigpond.com) and other sources
- Requires careful consideration

# Signs of Judgement

- Flood and the ship of Noah
- Fire blackened mountain
- Execution {Crucifixion} site with earthquake crack
- Ark of the Covenant with blood on the Mercy Seat
- Tablets of stone with Ten Laws (Commandments) engraved
- A basis for careful introspection and self examination

## Indications of coming judgment

Revelation 20:11-15 *"Then I saw a great white throne and Him who sat on it, from whose face the earth and the heaven fled away. And there was found no place for them. And I saw the dead, small and great, standing before the Almighty {God}, and books were opened. And another book was opened, which is the Book of Life. And the dead were **judged** according to their works, by the things which were written in the books. The sea gave up the dead who were in it, and Death and Hades delivered up the dead who were in them. And they were **judged**, each one according to his works. Then Death and Hades were cast into the lake of fire. This is the second death. And **anyone not found written in the Book of Life was cast into the lake of fire.**" NKJV*

Revelation 21:5-8 *"And He said to me, "It is done! I am the Alpha and the Omega, the Beginning and the End. I will give of the fountain of the water of life freely to him who thirsts. He who overcomes shall inherit all things, and I will be his Mighty One {God} and he shall be My son. But the cowardly, unbelieving, abominable, murderers, sexually immoral, sorcerers, idolaters, **and all liars shall have their part in the lake which burns with fire and brimstone, which is the second death.**" NKJV*

**Indications of coming judgment  
Eternal fire is entirely plausible**

# There are **ALSO** alleged to be great rewards

- Revelation 21:6-7 "He who overcomes **shall inherit all things, and I will be his Mighty One {God} and he shall be my son.**"
- Revelation 2:7 "To him who overcomes **I will give to eat from the tree of life, which is in the midst of the Paradise of Yah {God}.**"
- Revelation 2:11 "He who overcomes **shall not be hurt by the second death.**"
- Revelation 2:26 "And he who overcomes, and keeps My works until the end, to him **I will give power over the nations**"
- Revelation 3:5 "He who overcomes shall be clothed in white garments, and **I will not blot out his name from the Book of Life**"
- Revelation 3:21 "**To him who overcomes I will grant to sit with Me on My throne,**" NKJV

## WHERE WILL YOU SPEND ETERNITY?

(WHAT IS REQUIRED IN ORDER TO QUALIFY TO SIT ON  
A HIGH THRONE FOR ETERNITY?)

### 1 A CRITICAL QUESTION

The most important question facing every human being today, as in every generation, is:

***"Where will i spend eternity?"***

This is a question that very few people are considering in earnest.

Revelation 3:21 *"To him that overcometh will I grant to sit with me in my throne, even as I also overcame, and am set down with my Father in his throne."*

# The source of water

## A massive ice block striking the earth

- An ice object from space or ice objects
- Strike the earth and either melt as they pass through the atmosphere
- Or hit the surface and disintegrate and melt on impact

# Gravitation force and / or impact disrupts the earth's orbit and rotation

- Magnitude of the object large enough to disrupt the orbit of the earth around the sun
- Tilt the earth on its axis
- Trigger massive surface disruption as in molten rock bursting to the surface, volcanoes
- Crust breaks up, continents separate
- Earth expands
- Massive drainage of surface water

# Wrapping up -- my conclusions

- Is the planet inherently internally unstable?
- Or is the planet stable except when impacted by external forces?
- Was there an impact or near miss by a comet or other astronomical object?
- Is our Universe stable, or unstable?

# Unplanned & unmanaged evolution? or an intelligent creator

- Do we exist in an environment of unplanned, unmanaged progressive self inventing 'evolution'?
- Or do we exist in a context of an environment that is subject to a higher creative agency, an engineer, a creator?

# Business as usual forever? or a Day of Judgment with rewards? And penalties?

- Will we live the rest of our lives as we please with no consequences?
- Or is there a Day of Judgment where we will all be called to account for the way we have lived our lives?
- Is there a penalty for failure, a lake of fire (brimstone)?
- Are there thrones in a place of great beauty which are a reward for faithful service to the Creator?
- Are there places in-between – does it matter how we live?

# An engineering conclusion what makes sense to you?

- Please weigh up all I have shown you and all I have said.
- Please do not decide based on a whim or what someone else has said.
- You are an intelligent being, exercise your intellect to understand the issues and make an informed choice.
- Make a rational, practical decision, one that you are willing to defend no matter what, something you can “hang your hat on”.

# Summing up

- Steady state theories cannot explain what we have seen in this video
- Massive external forces HAVE to have been applied
- A massive external source of water seems essential
- There ARE large chunks of ice in space
- An astronomical object or “Ice Comet” seems to explain the situation
- Is there a better theory?
- I do not know one
- What do YOU think?

# What do you think?

- Was there a flood?
- Did the flood “just happen”?
- Was there a judgment?
- Will there be another judgment?
- Where will YOU spend eternity?

# My considered conclusion

- There WAS a massive hydraulic and tectonic event
- It was triggered by an externally generated instability
- It took place relatively recently
- There IS a Creator
- There is looming judgment, possibly within a thousand years or much sooner
- The Ten Commandments will form the basis of judgment
- We each have a choice which ranges from eternal hellfire to a high throne for eternity

# What do YOU choose today?

# Dedication

- This presentation is dedicated to our Creator, Yah {the LORD} the eternally self existing, who is the reason for our existence and the source of our being and who desires our fellowship with Himself for eternity
- In whom we live and move and have our being
- May Yah the eternally self existing make His face to shine upon you and give you His peace
